Our MirageVision Pro-C models are designed for commercial outdoor digital signage. The donor display is a commercial digital sign (PH-F series) by Samsung that is made for 24/7 usage with built-in media player and an upgraded anti-glare screen. These models have been altered for outdoor use and are rated at 700+ Nits of brightness – before our added MPET outdoor calibration that enhances the brightness, color, gamma and contrast for outdoor daytime viewing. Thin bezel design for video wall applications.

Connectivity	Input
RGB	DVI-I (D-Sub Common), DisplayPort 1.2 (2)
Video	HDMI (4)
Audio	Stereo Mini Jack
USB	USB
Output	
Audio	Stereo Mini Jack
External Control	R2232
External Sensor	IR
Power	Type: Internal
Power Supply	AC 100 - 240 V- (+/- 10 %), 50/60 Hz
Features	VESA Mount: 400 x 400mm
Stand Type	NO, Must be Wall Mounted
Hardware	Temperature Sensor, Pivot Display, Clock Battery (80hrs. Clock Keeping), Built in Speaker (10W 2ch), IP5x
Environmental Conditions	Operating Temperature: 0°C ~ 40°C
Optional	
Green Management	Emission Standard: EMC
Energy Star Compliant	ENERGY STAR 7.0
RoHS Compliant	Yes
Packaging Recyclability	Packing Materials Recyclable
Contrast	MEGA
Humidity Protection	Circuitry and Boards Coated with out Krypto-Shield™ Technology
Weatherproof Cover	YES, Must be used when TV is not in use
Donor	Samsung Digital Sign Donor

FEATURES

WEATHER PROOF

Diamond Pro-C DS's are IP5x certified, signifying their dust-resistant design and ability to withstand a range of environmental conditions.

The all-new embedded media player powered by TIZEN™ Transcending past hardware performance, the new SSSP 4.0 enables CMS partners to develop and deploy advanced web applications which can help to effectively manage content and SMART Signage.

SLIM DESIGN

Boasting of the slimmest depth design in the industry (29.9mm), Diamond-Pro-C DS displays provide a compact, but strong signage solution for environments limited by space or configuration.

24/7 CONTINUOUS OPERATION

Commercial-level cooling techniques offer dependable reliability. Samsung QMF displays are designed to deliver peace of mind.

NON-GLARE PANEL

The non-glare panel minimizes reflection, making messages easier to see. Text is legible, visuals have maximum impact.
